Total Credit Hours: 15

Semester = 16 Weeks, Session I or Session II = 8 Weeks. Sample curriculum plans are subject to change without notice. L=Lab, C=Clinical

* As part of this course, students will attend an on-ground immersion weekend. The purpose of the immersion is to provide students with an opportunity to interact with professors and fellow students as well as to observe, participate and be evaluated on clinical assessment skills. The immersion weekend allows faculty to assess each student's clinical competency before entering clinical rotations.

** As part of this course, students will attend a second on-ground immersion weekend. The purpose of this immersion is to provide students with the opportunity to observe, participate in and be evaluated on advanced diagnostic and therapeutic skills needed in complex acute care settings. This immersion event allows students to work with faculty and fellow students to assess skill competency before entering the final two clinical rotations.

*** As part of this course, students will attend an on-ground intensive review weekend that focuses on final student preparation for advanced practice.

Program/Program options availability varies by state/location. Chamberlain reserves the right to update information as it becomes available. Information is current at the time of publication. For the most updated accreditation information, visit chamberlain.edu/accreditation.
